"How high do you want to fly," they asked me.

"As high as we can fly together, can't we?"

"Is it possible to stand in Heaven with your feet planted on Earth?"

"We tell you it's possible, and we're here to prove it."

Welcome to the **African Theatre Webinar Series** where Africa hosts the world in throbbing festivals of life! Changing every month, theatre practitioners, researchers, and teachers initially from 12 African countries will speak and show case theatre forms in their country. Each session is an event with showers of knowledge past and present towards sustainable communities.

This project aims to give insights into African perspectives of theatre and to promote scholarship on African drama and theatre as part of world heritages of knowledge and practice. We will also focus on contemporary projects in the field of theatre and education. The project will build mutual and professional relationships among drama / theatre and education practitioners in Africa and the rest of the world.
